

MassWildlife Lands User Guide

Dartmoor Farm Wildlife Management Area

Towns: Dartmouth
Acreage: 473
Wildlife Management Zone: 11

Description of property:

This property consists mostly of red maple swamp as well as upland forest with a mix of hardwood and pine. There is an intermittent stream which bisects the property north to south and an active corn field along Division Road.

Location/Access/Parking

This property is accessible through the main parking area on Division Road in Dartmouth with a capacity of 4 to 6 vehicles.

Habitat Management

About 20 acres of this property are actively farmed for corn. Portions of the field are left as standing corn after harvest to provide cover and food for wildlife while harvested areas provide an attractive food source for waterfowl.

Hunting Opportunities

This property supports a variety of game species and is a popular area for White-tailed Deer and rabbit hunters. Hunting opportunities include White-tailed Deer, Wild Turkey, Eastern Coyote, and cottontail rabbits. Raccoon hunting in this area should prove to be productive due to active agriculture on the property.

Wildlife Viewing and Other Features:

This property supports a variety of non-game species including songbirds, hawks, and owls which makes it a good bet for birding.

Special WMA Regulations:

None
