Wendell Wildlife Management Area

Towns: Wendell

Acreage: 601

Wildlife Management Zone: 5,6

Description of property:

This property consists of one large 588-acre property and three smaller parcels. The habitat types on this WMA consist of upland forest of transitional hardwoods (maple, oak, birch) mixed with white pine and hemlock. A few small beaver ponds can be found along the northern portion of this WMA.

Location/Access/Parking

The property can be accessed from Bullard Pasture Road, Locks Village Road, Cooleyville Road, and Jennison Road. A grass parking area that can accommodate three cars is located on Bullard Pasture Road and a dirt parking area for one car can be found on Locks Village Road. Parking areas are not maintained for winter use.

Habitat Management

This property is not currently in active management but is reviewed annually regarding the need for forest cutting plans and other habitat management activities.

Hunting Opportunities

This WMA provides hunting opportunities for Black Bear, White-tailed Deer, Eastern Coyote, and squirrel.

Wildlife Viewing and Other Features:

An old woods road bisects the property and provides opportunities for walking or cross-country skiing. Significant stone walls and old cellar holes dot the WMA and provide a glimpse into its agrarian past.

Special WMA Regulations:

None
