

OTIS WILDLIFE MANAGEMENT AREA

(Otis)

SIZE: This is a small, 84-acre parcel of steep, mostly west-facing slope abutting a portion of the Otis State Forest. Elevation ranges from 1,510 to 1,725 feet, and upper areas afford a panoramic view of the west.

VEGETATION: Cut over forest of mixed northern hardwoods and softwoods.

WATER: Aside from a few seeps and a tiny sliver of wooded swamp at the bottom of the area, there is no water of any significance.

WILDLIFE: Grouse, deer, raccoon, coyote and numerous nongame species.

**SPECIAL
REGULATIONS:** None.
