## Stone Bridge Wildlife Management Area

**Towns:** Phillipston, Templeton

**Acreage:** 201

**Wildlife Management Zone:** 5

### Description of property:

This property consists of abandoned gravel banks, mixed hardwood ridges, and an extensive wetland with numerous beaver impoundments along Wine Brook as it flows through the WMA.

### Location/Access/Parking

Parking for this WMA is located off of Dudley Road (Route 101) and can accommodate 4 vehicles.

### Habitat Management

Water level management occurs at Wine Brook for habitat management for waterfowl and water birds as well as for warmwater fishing resources and aquatic mammals.

### Hunting Opportunities

The extensive wetland complex provides good hunting opportunities for waterfowl. The hardwood ridges provide food and hunting opportunities for White-tailed Deer and Gray Squirrel. Abandoned gravel banks offer good predator hunting opportunities.

### Fishing Opportunities:

Wine Brook flowage offers pan fishing/warmwater fishing opportunities. There is informal car top/canoe access at the dam located on Route 101.

### Wildlife Viewing and Other Features:

This WMA is a Wood Duck nest box study site and an American and Least Bittern breeding site. The extensive wetland complex provides abundant waterfowl and aquatic mammal viewing opportunities.

### Special WMA Regulations:

None
