Quacumquasit Wildlife Management Area

Town: Brookfield

Acreage: 180

Wildlife Management Zone: 8

Description of Property:

This property is comprised of abandoned apple trees, beaver impoundments, corn and agriculture fields, and wetland marshlands. It borders both Quacumquasit (South) Pond and Quaboag (North) Pond.

Location/Access/Parking:

Parking for this area is located on Lake Road and will accommodate 8 vehicles.

Habitat Management:

There is active agriculture in the fields and the WMA is also managed for open space.

Hunting Opportunities:

Active agriculture fields provide food for many species, and overgrown fields provide for upland hunting opportunities. Also, beaver impoundments provide for numerous waterfowl hunting opportunities.

Fishing Opportunities:

Quaboag Pond offers warmwater species for angling and has been a popular destination for Northern Pike fishing. Quacumquasit Pond is a trout-stocked water and a special Brown Trout water regulation applies. Total creel is 3 trout but only 1 may be a Brown Trout and it must be at least 15" in length. Also, warmwater species may be found here. Go to [Mass.gov/Trout](https://www.mass.gov/trout) for more information.

Wildlife Viewing and Other Features:

This property borders Quaboag Pond and offers waterfowl viewing opportunities. Also, this property is frequently used by Bald Eagles.

Special WMA Regulations:

Quacumquasit (South) Pond Special Brown Trout water; total daily creel is 3 trout but only 1 may be a Brown Trout and it must be at least 15" in length.
