

SAVAGE HILL WILDLIFE MANAGEMENT AREA

(Rutland/Princeton)

SIZE: 452 acres of ridge, hilltop and marsh. Slopes are fairly moderate, though there are some steep areas on the west side of Savage Hill.
U.S.G.S. Quad: Sterling

VEGETATION: Mixed hardwood and conifer forest with some acreage in alder thickets, shrub swamps and open marsh.

WATER: The area includes a very small section of cold water stream, as well as a few dozen acres of open and wooded wetlands.

WILDLIFE: Grouse, deer, gray squirrel, fisher, waterfowl, some aquatic fur-bearers and numerous nongame species. This area is **not** stocked with pheasant.

SPECIAL

REGULATIONS: None.
