

## MassWildlife Lands User Guide

# Jug End Fen Wildlife Management Area

**Town:** Egremont

**Acreage:** 54

**Wildlife Management Zone:** 3

### Description of property:

The majority of Jug End Fen WMA is comprised of brushy swampland and marsh. This property is divided into 2 parcels and borders the Jug End Fen WCE on several sides. This property is an ecologically important area for rare plants and animals.

### Location/Access/Parking:

There is no formal parking lot, but there is roadside parking for a few vehicles along Hillsdale Road (Route 23). Access to this WMA may be challenging for some recreational users due to the presence of swampland and marsh.

### Habitat Management:

Some grazing, mowing, and herbicide application has been done at Jug End Fen WMA to control vegetation and to maintain the characteristics of the marshy areas.

### Hunting Opportunities:

There are opportunities to hunt for white-tailed deer in the northern, upland section of this WMA near the parking area off of Route 23.

### Fishing Opportunities:

Small reaches of Fenton and Kerner Brooks flow through the Jug End Fen WMA, both of which contain populations of native brook trout.

### Special WMA Regulations:

None.
